## Who we are and what we do

**Openbrolly** is a successful software services company, established in 2000 and based in the UK.

We provide software products and cloud solution services to the Film and TV production industries in the UK and internationally.

**MovieSite** was developed working with film offices to improve their business processes to save time and money, as well as improve economic impact.

Our mission is to work with film makers and film offices around the world to make production happen.

We design, build and provide cloud computing based services and solutions which comprises rented (licensed) software infrastructure, security and support. Simply this means:

- No infrastructure or IT knowledge is required by our clients to use our services beyond access to the internet with a PC or mobile device.
- Services are available globally, anywhere, anytime, by anyone (that you authorise)
