Filming Applications & Permits

MovieSite

POWERED BY Openbrolly

Do you need to manage **filming applications and permits** with partners?

Do you need Excellent **value for money?**

Do you need to manage filming applications or permits in your **own** or **nearby areas?**

Do you need to see how film applications and permits fit into a production?

Do you need to **invoice for permits** and take payment?

Do you need to do this as **easily as possible** without using up too much time?

If so, then **MovieSite Permits** is for you

"Just to say, I had to send out quite a few permits last week and I found the new system really easy to use - no issues from applicants. It's easy to see the details of the projects as well as the actions that take place - all in all a great experience so thanks for your hard work so far in getting it to come together."

Who we are and what we do

Openbrolly is a successful software services company, established in 2000 and based in the UK.

We provide software products and cloud solution services to the Film and TV production industries in the UK and internationally.

MovieSite was developed working with film offices to improve their business processes to save time and money, as well as improve economic impact.

Our mission is to work with filmmakers and film offices around the world to make production happen.

We design, build and provide cloud computing based services and solutions which comprises rented (licensed) software infrastructure, security and support. Simply this means:

- No infrastructure or IT knowledge is required by our clients to use our services beyond access to the internet with a PC or mobile device.

- Services are available globally, anywhere, anytime, by anyone (that you authorise)

Our services are modular and designed to fit the needs and budgets of all sizes of client.
