Features & Benefits

EventsMakr allows for event applications and permit issuing for both the smallest and largest office.

A powerful cloud based system that streamlines every step of the application process for both user and applicant.

Multi-area/council permit applications with a single log on for users.

Great communications, notifications and messaging with all stakeholders involved in permitting in your area

No more duplication for applicants. **EventsMakr** disseminates information to the relevant sectors from just one form.

Calendar integration for your organisation so you have complete oversight

Automatically calculates and streamlines medical provisions

Secure built-in invoicing and payments to make life easier

Streamlined and efficient approval with audit trail of documentation and communication

Access to the Openbrolly community where you can find information, training and peer support

Includes enquiries

Key reporting on event types, economic impact attendance and more

Contact management system to help build strong relationships with event organisers

Cost effective and great value

EventsMakr

Event Organisers looking to hold an event

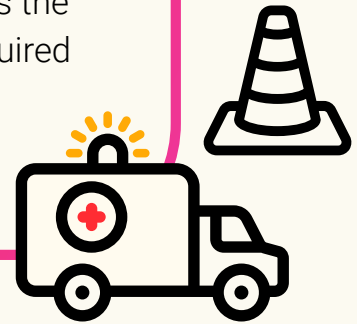

They use online permit system

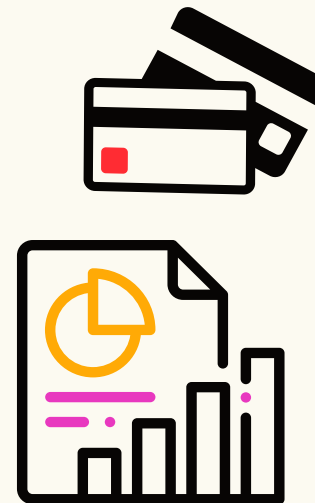

Local Authority
processes several
applications
simultaneously

EventsMakr shares
information to the relevant
partners and calculates the
medical provisions required

Local Authority sends out
permits, invoices and uses
management reports

"Whether the application is for rural countryside location or inner city street, the application process has been developed with the applicant in mind, and means event organisers have the confidence that their application will be dealt with quickly and efficiently."

Who we are and what we do

Openbrolly is a successful software services company, established in 2000 and based in the UK.

We provide software products and cloud solution services to the Film and TV production industries in the UK and internationally.

Eventsmakr was developed working with event offices to improve their business processes to save time and money, as well as improve economic impact.

Our mission is to work with event makers and event offices around the world to make events happen.

We design, build and provide cloud computing based services and solutions which comprises rented (licensed) software infrastructure, security and support. Simply this means:

- No infrastructure or IT knowledge is required by our clients to use our services beyond access to the internet with a PC or mobile device.
- Services are available globally, anywhere, anytime, by anyone (that you authorise).

EventsMakr is Covid ready as regulations are confirmed in your area.
